Any alterations or deviation from the specifications involving extra costs will be executed only upon written orders and subject to additional charges and lead time. All pertinent information (checklists, drawings for reference, etc.) is required on orders before production can begin. Shop drawing approval process may affect lead time, if applicable. Shop drawings submitted for edits, comments or approval must be reviewed and sent back to the studio within 5 business days or less from receipt of initial drawings. John Pomp does not accept responsibility or liability where on-site conditions and limitations prevent final delivery of items.

Our shipping and handling quotes do not include import duty and VAT. If International crate is required for final destination, it must be clearly indicated on the purchase order.

DESIGNS / DIMENSIONS

All designs are the property of John Pomp. We reserve the exclusive right to produce these designs. Design details are subject to change without notice. All dimensions are approximate. Variations and imperfections are a regular occurrence with the glassblowing process and are integral to achieve the organic quality of our aesthetic.

John Pomp, or a member of John Pomp will be permitted to photograph the installed fixture upon completion of the project.

LUMENAIRES

John Pomp operates as a UL Certified shop and all standard components used in our fixtures have been fabricated in accordance with UL regulations. UL listing will be automatically included for fixtures that meet UL regulations at no additional cost. UL listing information can be found in the John Pomp catalog.

CARE AND MAINTENANCE

Wear nitrile gloves when handling all components of fixture, especially during installation. We recommend using denatured alcohol on all glass components. Cleaning the metal components depends on which finish your piece was made with. Satin chrome, satin nickel, satin brass, oil rubbed blackened steel, light oil rubbed blackened steel, oxidized brass and antique brass finishes can be cleaned using diluted Simple Green solution. DO NOT use acetone or mineral spirits to clean the metal components. Wires can be cleaned with denatured alcohol or your standard glass cleaner. Please refer to care & maintenance and lightbulb resource guide supplied in your shipment for more information regarding care of your product and replacement bulbs.

CHANGES / CANCELLATIONS

Changes in orders are subject to prior written approval by John Pomp. Changes may affect the price and cause production/shipping delays. Cancellations accepted after production begins may forfeit deposit.

RETURNS

We do not accept returns unless the order has arrived damaged. If there are circumstances that require us to accept a return, please note that this will be subject to a 25% restocking fee and the item must be in resalable condition. No returns will be accepted without prior written consent of John Pomp. Authorized returns must be shipped in accordance with shipping instructions issued by John Pomp. Unauthorized returns will be refused. If a rewire of a fixture is required, the original purchase order name/number must be referenced and a quote will be provided. The client will be responsible for repacking and returning the fixture. John Pomp is not responsible for any damage that may have occurred to the fixture upon original installation, de-installation, packing or return shipping. Therefore, once the fixture is received, John Pomp will notify the showroom and/or client of damage as well as any initial cost for touch-up or repair.

FORCE MAJEURE

John Pomp is not liable for delays in shipping or failure to perform due to labor dispute, earthquake, acts of God, compliance with government regulations, or any other cause beyond our control.
